

3 Hurlstone Crescent Moonah TAS

3 1 3

Have you been inspired by the recent season of the Block and have been looking for a project to get stuck into? Well, look no further as this three-bedroom property is in the sort after suburb of Moonah.

Although it is clear to see that this home needs renovating, the bones of the property are great and with a little bit of creativity, this home could become something special. Entering the home you will find a large formal lounge room that connects through the kitchen/dining area and could be reworked into a large open plan living area. Then down the other end of the home, you will find three bedrooms and a three-piece bathroom rounding out the home.

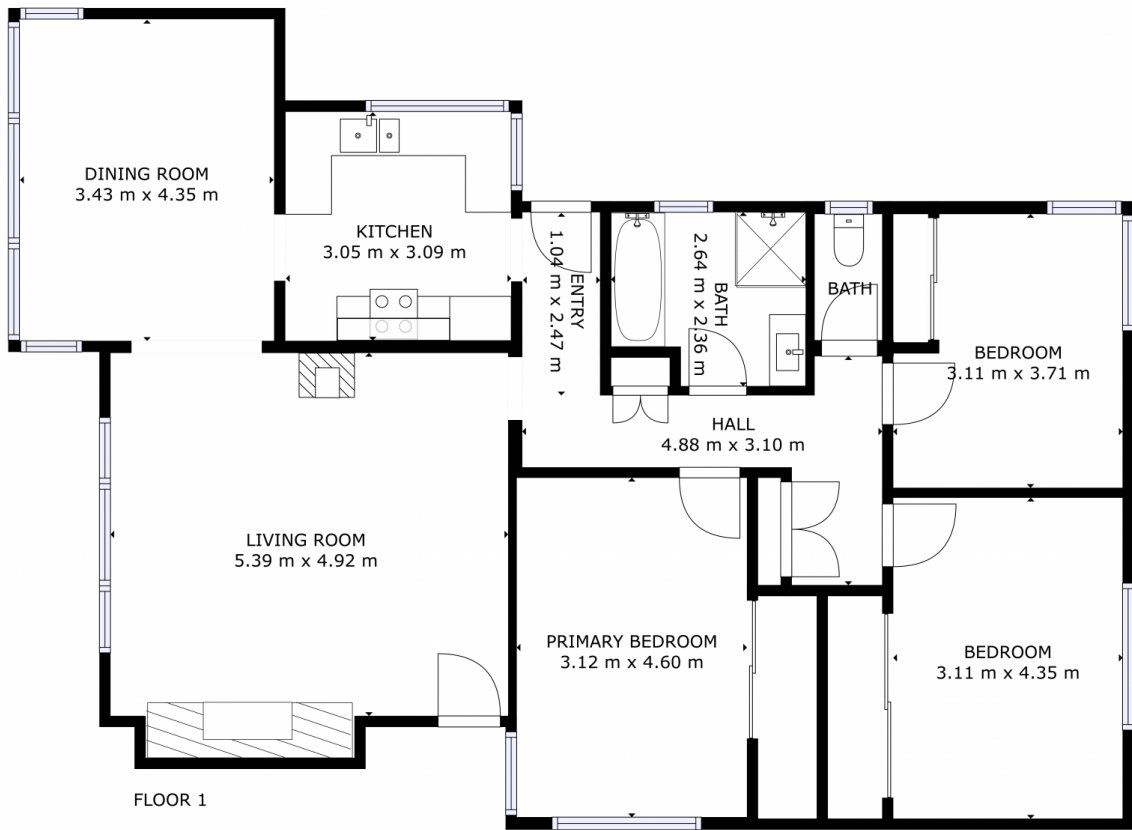

Outside is a secure backyard and under house storage
