

26 Arundel St Derwent Park TAS

3  1  2 

The location of 26 Arundel Street, being a little cul de sac street, is one where if you blink, you'll miss the turn off. This is certainly not a bad thing for locals as it allows for privacy and security knowing that there is no thoroughfare traffic.

The property itself is made up of 3 bedrooms, a separate lounge opening through to an open kitchen and dining area. The necessities are all here of course as well, with a separate bathroom and then separate laundry and toilet from the kitchen so you don't have to wait to use the shower.

The home's character and homely feel are also noteworthy features that will appeal to those who value a sense of warmth and comfort in their living space with natural light beaming through.

Building Size : 100 sqm
Land Size : 632 sqm
